

# 221B Group Limited

## INNOVATION BY DESIGN

### 221B SECURITY SOLUTIONS AND 221B SMART SOLUTIONS BECOME 221B GROUP LIMITED

As 221B Security Solutions Limited continues to grow within the security industry and its sister company 221B Smart Solutions has developed rapidly within the smart technology market, we decided it was time to reflect the growth of both companies and merge them together to become 221B Group Limited.

What will this mean for you?

A single source for both specialist security systems offering effective protection and a full range of smart technology products to support and compliment your business from a team you know and trust.

Whatever type of industry or market you are working within there are endless possibilities to develop a fully audited automated system reporting on essentials such as lone workers, proof of compliance, presence and service, security and life systems, asset tracking, key management and much much more.

The benefits of a connected and protected workplace are varied and many, bringing benefits to both you, your employees and anyone in contact with your business.

*"This again reflects our growing strength as a business in both the security and connected technology markets, this marrying of our two brands will benefit our existing and future clients with the ability to offer a range of solutions."* Operations Director Mark Thorne commented.

It's time for you to let us help you become connected.
